🔗 linkedin.com/in/ifaiz2

SKILLS

- Proficient in Javascript, SQL, TypeScript, HTML, CSS.
- Experienced with Express, MySQL, NoSQL like mongoDB, dyanamoDB etc, AWS Cloud, Docker, Angular, React.
- Strong problem-solving and collaboration skills.
- Passionate continuous learner, staying updated with tech trends.
- Skilled in full-stack development, including testing and debugging.

PROJECTS

Collaborative File Sharing & Text Editor
🔗 notespot.site/file-sharing-app
- Developed a real-time file-sharing and collaborative text editor using Node.js and Socket.io.
- Implemented event-driven architecture to sync changes across users in a shared session.

Image Search & Upload App
🔗 faizweb.in/image-app
- Built an infinite-scroll image search application using React Query and Imgur API.
- Enabled image uploads with direct URL generation for external sharing.

API & Webhook Testing Platform
🔗 faizweb.in/placeholder-api
- Created a custom API endpoint generator similar to JSONPlaceholder, allowing users to define mock data responses.
- Developed a webhook testing tool for real-time request monitoring and debugging.

Miscellaneous
- Deployed backend services on personal AWS instances with Dockerized applications for better scalability.
- Hosted Next.js applications on Netlify for efficient frontend delivery.
- Additional Links:
  🔗 Chat App using supabase
  🔗 Make Note and Publish (ckEditor & Mongo)
  🔗 Browser element editor with unique link
  🔗 Object detection used (Hugging face API)

PROFILE

Dedicated Software Engineer with **4+** years of experience in full-stack development, specializing in Node.js, TypeScript, and modern web technologies. Proven expertise in building scalable backend systems, integrating complex APIs, and delivering robust web applications using Angular and React.

WORK EXPERIENCE

Ipsos India Pvt. Ltd
Software Engineer   Jun 2024 - Present

- Developing and maintaining enterprise-level web applications
- Collaborating with cross-functional teams to design scalable solutions.
- Optimizing system performance using advanced software engineering techniques.

Crownit, GoldVIP Company
Software Engineer   Oct 2021 - Jun 2024

- Generated comprehensive reports using large-scale CSV/SAV file processing
- Integrated multiple service provider APIs including:
  - Payment gateways
  - Translation services
  - ChatGPT integration
  - Voice detection systems
- Implemented robust file management solutions using AWS and RabbitMQ
- Developed custom web components with Angular, including media player and file viewer
- Managed backend authentication and security protocols

MilestoneOS
Software Developer Trainee   Jul 2021 - Oct 2021

- Completed intensive JavaScript and logic building training.
- Developed applications using React and Nodejs.
- Gained hands-on experience with Firebase and Heroku deployment

EDUCATION

BACHELOR OF TECHNOLOGY
Dr. A. P. J. Abdul Kalam Technical University, Lucknow

2015 - 2019

INTERMEDIATE (PCM)
ZILA SCHOOL, PURNIA
Affliated to BSEB Patna.

2012 - 2014
